

# SCRUM Training: A Practical Introduction to Agile (AGINTRO, 4 jours)

---

## Description

The course A Practical Introduction to Agile (SCRUM Training) shows you what agile project management looks like in the world of SCRUM. You learn how to manage your product backlog and the resulting sprints using sophisticated agile management techniques that can adapt to the changing needs of your clients. You will acquire real skills in Backlog Grooming and in managing every Scrum activity from Sprint Planning to the Sprint Retrospective. The 50:50 theory to practice ratio will further help you to transition your newly acquired SCRUM skills to your workplace.

## Tarifs

- Tarification: \$3,750/person
- Rabais de 10% lorsque vous inscrivez 3 personnes.

## Plan de cours
