

Scrum Training: Agile and Scrum for Everyone (SCRUMO, 1 jours)

Description

The introductory course, Scrum Training: Agile and Scrum for Everyone, gives participants a better understanding of Agile Methodologies, focusing on Scrum – values, principles, framework, roles, activities (events), and deliverables (artifacts). Participants will have a better understanding of the strengths and limitations of the Scrum Framework, and how it can be applied in a range of fields: developing software (Scrum is now the gold standard approach), marketing, innovating education, enterprise projects, manufacturing, and designing products of any kind. This course is delivered using a dynamic combination of lectures, media, discussion, and exercises.

Tarifs

- Tarification: \$850/person
- Rabais de 10% lorsque vous inscrivez 3 personnes.

Plan de cours
